BIGYIELD.US PRODUCT GUIDE

BIGYIELDCOAT

BigYieldCoat is a micronutrient supplement that gives seedlings what they need, once germinated, to get a head start on the growing season. It's survival of the fittest, so give your plants the supplements they need to emerge, grow, and thrive. Crops will get up and out of the ground faster, grow stronger stems, and better compete for nutrients, water, and sunlight.

Offerings: 5-lb. jar, 20-lb. case | **Rate:** 4 oz. (soybeans) to 8 oz. (corn) / 100 lbs. of seed | **Crops:** All crops
Notes: 1 5-pound jar treats approximately 40 acres on soybeans and approximately 50 acres on corn

BP IN-FURROW

Producers may use BP In-Furrow as an application that combines the BigBioYield multiple beneficial bacteria blend with a high-quality, food grade starter fertilizer. It's proven to significantly increase yields in corn, wheat, milo and other crops.

Offerings: 275 gallon tote, bulk, tanker load quantities | **Rate:** 4-10 gal. / acre
Crops: corn, soybeans, wheat, milo

BIGBIOYIELD

BigBioYield supplies multiple beneficial bacteria derived from naturally occurring microorganisms that are proven to increase plant health and crop yields. This product also promotes enhanced disease control because it produces metabolites, increases the availability of nutrients bound to the soil and improves the size of a plant's root mass.

Offerings: 2.5 gallon jug, 5 gallon case, 275 gallon tote | **Rate:** 16 oz. / acre | **Crops:** all crops

BIGSWEETYIELD

A cold-processed sweetener, BigSweetYield has been designed to deliver a health-boosting shot of energy that will invigorate your plants. BigSweetYield has been proven to increase yields, increase a plant's BRIX level, reduce insect pressure and increase the efficacy of herbicides.

Offerings: 50 lb. bag, 2,500 lb. pallet | **Rate:** 1 lb. / acre | **Crops:** all crops

BIGSWEETYIELD DB

BigSweetYield DB is a cold-processed sweetener mixed with the multiple beneficial bacteria in BigBioYield and Yield Booster with seven micronutrients. It has proven to significantly increase soybean yields, and it delivers all of the benefits provided by the BigSweetYield cold-processed sweetener.

Offerings: 275 gallon tote | **Rate:** 3 qts. / acre | **Crops:** soybeans

BigYield.us has been providing biological product solutions since 2008. Our products have demonstrated the ability to consistently improve corn, soybean, and wheat yields in our farm trials, university research trials, and on individual farms throughout the Midwest. Contact a BigYield.us professional for more information at 844-242-4367, or on the web at **www.BigYield.us/**

YIELD BOOSTER

Yield Booster blends seven vital micronutrients designed to supply your crops with the nutrients that they need to attain high yields. This Yield Booster micronutrient blend also significantly contributes to plant and root health.

Offerings: 2.5 gallon jug, 5 gallon case, 275 gallon tote, tanker load quantities
Rate: 1 qt. / acre | **Crops:** corn, soybeans, wheat

YIELD TOPPER OT

Yield Topper OT is created from chicken litter pellets, microbes, and other unique nutrients combined using an exclusive fermentation process that helps boost plants nutrient uptake. It incorporates carbohydrates, vitamins, enzymes, amino acids, microbes, and molasses.

Offerings: 2.5 gallon jug, 5 gallon case, 275 gallon tote | **Rate:** 1 to 2 gal. / acre | **Crops:** corn, soybeans
Notes: Yield Topper OT can also be used as an in-furrow standalone treatment
